

Public Involvement Strategy

2018-2023

Our Public Involvement strategic objectives will continue to align with those of the national RDS INVOLVE Public Involvement Community and RDS INVOLVE.

- a. Promote effective ways of encouraging and supporting RDS clients to work with members of the public in research design**
- b. Support an increasingly diverse and empowered Public Involvement community**
- c. Continually review existing Public Involvement structures and regional networks to enhance communication and sharing of information.**
- d. Work with INVOLVE and members of the public to inform, promote and encourage INVOLVE's Values and Principles Framework regionally**
- e. Ensure that through its partnership with INVOLVE, the RDS will act as a communication link.**
- f. Provide leadership and support to promote local Public Involvement partnerships so that Public Involvement is locally driven and relevant.**
- g. Provide support and development to RDS Public Involvement staff and public representatives and partners**
- h. Continue to demonstrate the impact of Public Involvement in the work of the RDSWM to enhance continuous improvement**
